Yo	u are now going to edit a document about choosing hardware for a compu	ıter.	✓
1	Using a suitable software package, load the file N14MICE.DOCX		
2	Set the:  • page size to A4  • orientation to landscape.  Place screenshot evidence of this in your evidence document.	2	
<b>3</b>	Set the:  • top and bottom margins to 2 centimetres  • left and right margins to 1.5 centimetres.  Place screenshot evidence of this in your evidence document.	2	
7	Save the document with a new name in your work area. Make sure it is sain the format of the software you are using.	aved	
5	Set all the text to:  a 12 point serif font  1.5 line spacing	3	
6	<ul> <li>be fully justified.</li> <li>Make sure there is a single 12 point line space after each paragraph.</li> </ul>	2	
7	Place in the header: • your name, and registration group Center Aligned Place in the footer:	2	
	<ul><li>today's date left aligned</li><li>Page number right alligned.</li></ul>	3	
	Make sure that all the alignments match the page margins.  Make sure that headers and footers are displayed on all pages.	1	
8	Insert a blank line at the start of the document and enter the title Input devices for a gaming computer	2	
9	Make the title centre aligned with a <b>36</b> point italic sans-serif font.	2	
10	Add a subtitle below the title:  Mice for gamers by: and add your name.	2	
11	Set the subtitle to be:  • an 18 point sans-serif font  • underlined  • not italic  • right aligned.	4	
13	2 Delete the paragraph that starts: The thing with the mechanical mounthere were wear and tear issues	se was that	1

13	Use the supplied image of a mouse and place it in the first page at the start of the second paragraph.	3
	Align it with the top line of the text in the second paragraph.	
14	Modify the image so that the cable is on the right side	2
	Make sure the text wraps round and below the image.	-
15	Re-size the image to so the height is 5cm and maintain the aspect ratio.	2
	Make sure the text wraps round and below the image.	
16	Apply a single bullet to each paragraph of the text from:  Mechanical mouse: Houses a hard rubber ball  to	2
	Cordless 3-D mouse: This kind of mouse
